

SMART ATS — Feedback Report

Candidate: Arjun Nair

Generated on: 2025-12-03 10:45

JD Match Score: 15%

Predicted Role: Data Analyst | Experience Level: Fresher

Matched Skills:

data, engineer, pipeline, project, python, skill, sql

Missing / Recommended Skills:

analysis, build, build nlp pipelines using tensorflow, churn, classification, customer, data scientist, deep, develop, devel

Suggestions:

- Include more JD-specific keywords and technologies near the top.
- Use stronger action verbs like 'developed', 'optimized', 'led'.
- Add more detail about projects and results (numbers help).
